

## Pay Plan Overview

# Phase 1 Levels

## Phase 1

# How does Phase 1 work

Phase 1 Level 1 cost just \$3.00. Once you upgrade to this level, you need to refer just 2 people into this level to be paid 100% commission or \$3 from each of those referrals. You may receive two referrals from spillover from your upline, but this is not guaranteed.

At anytime after upgrading to Phase 1 Level 1, you are welcome to upgrade to the next level. You are urged to upgrade as soon as you have a referral in Phase 1 level 1 so that they would not skip you in the following phases.

Once you upgrade to Phase 2, you open up another 2x6 forced matrix. As your downline from level 1 upgrade into level 2, they should follow you in the same order into each level assuming everyone upgrades as they did in the first level. Each level in the phase has its own “Pay Level”.

# Pay Levels

The levels highlighted in green are your "Pay Levels". When a member lands in this "green" level you will have been paid by them.

When you look at this image to the left you notice Level 1 first level is in “Green”, this is your Pay Level for the members upgraded in this matrix.

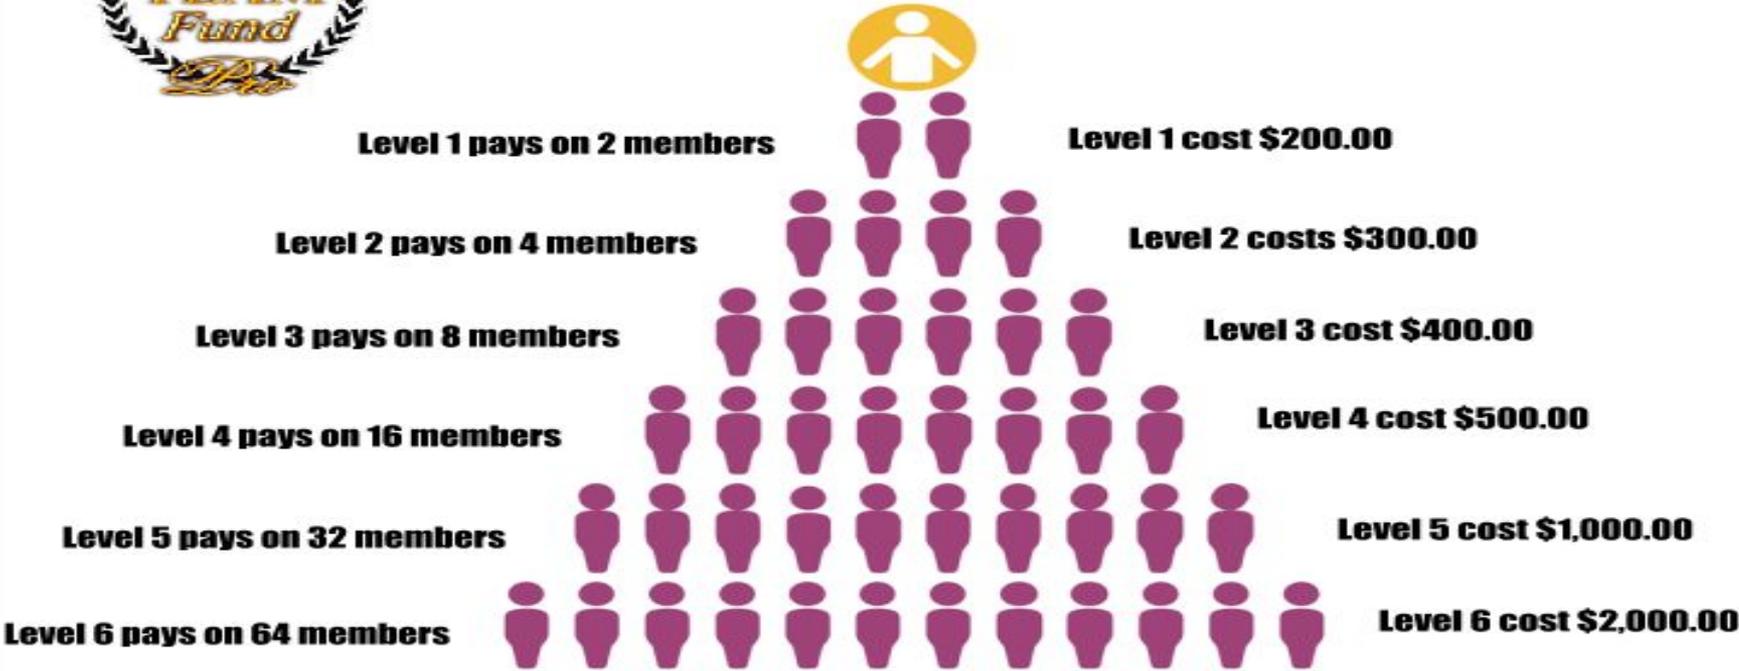

When you upgrade to level 2, you see the 2nd level in this matrix is “Green”. When a member falls into this level and pays, you will receive that payment.

The same goes for all the next levels, when a member falls into the “Green” level of that matrix, this becomes your pay line.

# Phase 2 Levels

## Phase 2

## How does Phase 2 work

Phase 1 Level 2 costs is \$200.00. Once you upgrade to this level, you need to refer just 2 people into this level to be paid 100% commission or \$200 from each of those referrals. You may receive two referrals from spillover from your upline, but this is not guaranteed.

Phase 2 works exactly the same way that Phase 1 worked, with referrals and downline members following you through the levels of this phase. You can upgrade to each level of this phase after purchasing the previous level.

Keep in mind you will receive over \$8500 from completing level 1, so upgrading to this phase comes out of your profits from Phase 1.
